ABOUT ABC GREATER TENNESSEE

The Greater Tennessee Chapter of ABC Helps Members Win Work and Deliver That Work Ethically, Profitably, and for the Betterment of the Community

Associated Builders and Contractors (ABC) is a national construction industry trade association representing nearly 21,000 chapter members. Founded on the merit shop philosophy, ABC's membership represents all specialties within the U.S. construction industry and is primarily comprised of firms that work in the industrial and commercial sectors.

Members of ABC have set the standard for safety, performance and integrity in the construction industry since 1950, and continue to raise the bar. Today, ABC is recognized as one of the leading organizations representing America's business community and the Merit Shop construction industry.

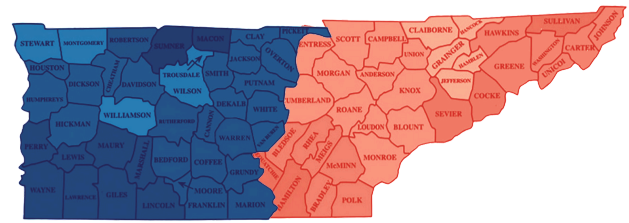

Since 1971, the ABC Greater Tennessee chapter has welcomed like-minded contractors committed to excellence, and delivering high-value, high-quality projects on time and on budget.

REGIONS

ABC Greater Tennessee represents approximately 390+ member companies across the Middle and Eastern regions of Tennessee.

POLITICAL ADVOCACY

Among the top reasons companies like yours join ABC, you'll find ABC's merit shop philosophy and our fair and open competition based political agenda.

Locally and nationally, ABC educates our members on legislative issues and provides them with the representation needed to protect their companies from unfair and anti-competitive business practices.

As an ABC member, your company will have a voice with Tennessee legislators on the issues affecting our industry.

Political Action Committee

The purpose of ABC Greater Tennessee PAC is to provide a forum for the broader ABC community to advocate its support for our industry's goals and needs through funding assistance for statewide candidates and broader public affairs outreach to leadership.

ABC Action App

ABC Action is an advanced advocacy tool that enables members to become a vital part of ABC's grassroots advocacy efforts and allows you to make your voice heard.

ABC GREATER TENNESSEE
**CONSTRUCTION
TRADES ACADEMY**

ABC Greater Tennessee is a leader in continuing education for the construction industry.

ABC Greater Tennessee delivers programs that equip craft professionals with the knowledge and skills they need to improve their productivity, safety, and advance their careers.

HOW IT WORKS

The Construction Trades Academy is a combination of trade specific study and on-the-job training. The program is designed to take someone who may have little or no experience in their chosen field to journey-level in four years. This is accomplished by utilizing hands-on-experience and trade related instruction.

ABC Greater Tennessee offers course training through Mike Holt Enterprises and the National Center for Construction Education and Research (NCCER). Mike Holt has been serving the electrical industry for over 40 years, creating and publishing books, DVDs, online training and curriculum. NCCER develops standardized construction and maintenance curriculum and assessments for the industry.

MEMBER AWARDS & RECOGNITION

STEP SAFETY MANAGEMENT

Founded in 1989 as a safety benchmarking and improvement tool, STEP has evolved into a world-class safety management system that dramatically improves safety performance among participants regardless of company size or type of work. Participating ABC members measure their safety processes and policies on 25 key components with the goal of implementing or enhancing safety programs that reduce jobsite incidents. All member contractors and suppliers may participate.

EXCELLENCE IN CONSTRUCTION

The EIC awards program is the industry's leading competition that recognizes both general and specialty contractors for innovative and high-quality merit shop construction projects throughout Middle and East Tennessee. The EIC award honors all construction team members, including the contractor, owner, architect and engineer. Submitted projects are judged by a panel on complexity, attractiveness, unique challenges overcome, completion time, workmanship, innovation, safety and cost. Chapter EIC Winners can move on to compete at the national level. Our chapter is proud to celebrate several national winners each year.

ACCREDITED QUALITY CONTRACTOR

The Accredited Quality Contractor program was launched in 1993. This program publicly recognizes and honors those construction firms that have documented their commitment in five areas of corporate responsibility: Quality, Safety, Talent Management, Craft and Management Education, Community Relations.
